

## Every Case Is Unique - We Resolve the Issues

### Cost Projections

We put our reputation as an industry leader on the line every time we accept an assignment. Our professionals have are knowledgeable of complex medical procedures and the intricacies of the medical coding and pricing.

This service is invaluable in settlement negotiations, reserve setting and assessment of future expenditures when a full life care plan is not necessary.

As our client you can expect preparation and development of a simple, clear document specifying anticipated future care with appropriate coding and pricing based on the jurisdictionally appropriate fee structure with references and sources clearly footnoted.

#### Resolution Focused-Result Driven

- Assists adjuster in setting reserves for future lifetime medical care and assessing valuation during settlement.
- Important tool for settlement negotiations
- Serves as a 'blueprint' for anticipated future lifetime medical care where a life care plan is not necessary
- Cost projections for simple procedures to complicated treatment plans are available.
